This is another post from the Suggest a Topic page, and while the original comment had a lot of questions about the overall functioning of an economy, I thought I'd take one question from it, and try and answer that in a post.. Why can't a country print money and become rich? A lot of people have this misconception that a country's currency is backed by the gold it holds.

But for all I know, if people stop eating meat and adopt vegetarian ways, they could feed at least 10 times more people using the same efforts and energy. This is based on the principle of energy-pyramid which states that the at least 10 units of vegetation is consumed to prepare 1 unit of meat by feeding the meat-producing animals.
