Sacred geometry ascribes symbolic and sacred meanings to certain geometric shapes and certain geometric proportions. It is associated with the belief that a god is the geometer of the world. The geometry used in the design and construction of religious structures such as churches, temples, mosques, religious monuments, altars, and tabernacles has sometimes been considered sacred.

For once, a book which really lives up to its title. Hall self-published this massive tome in 1928, consisting of about 200 legal-sized pages in 8 point type; it is literally his magnum opus. Each of the nearly 50 chapters is so dense with information that it is the equivalent of an entire short book.
