ID 2 Research Group Page 5 For example 3 Following is a knowledge object and knowledge-base records for sentences. Each of the components of the sentence knowledge object are represented by a field in the knowledge base.

Knowledge Objects - mdavidmerrill.com

A value network is a business analysis perspective that describes social and technical resources within and between businesses. The nodes in a value network represent people (or roles). The nodes are connected by interactions that represent tangible and intangible deliverables. These deliverables take the form of knowledge or other intangibles and/or financial value.

The Value of Emotional Intelligence - Safety Performance

The knowledge economy is the use of knowledge (savoir, savoir-faire, savoir-Être) to generate tangible and intangible values. Technology, and in particular, knowledge technology, helps to incorporate part of human knowledge into machines. This knowledge can be used by decision support systems in various fields to generate economic value.
