Burning Man is an annual event in the western United States at Black Rock City – a temporary city erected in the Black Rock Desert of northwest Nevada, approximately 100 miles (160 km) north-northeast of Reno. The late summer event is described as an experiment in community and art, influenced by ten main principles: radical inclusion, radical self-reliance, radical self-expression, communal ...

Regional quantification of feasibility and effectiveness of forest strategies to mitigate climate change should integrate observations and mechanistic ecosystem process models with future climate, CO2, disturbances from fire, and management. Here, we demonstrate this approach in a high biomass region, and found that reforestation, afforestation, lengthened harvest cycles on private lands, and ...
